Vote to make an Official LEGO set for FIRST POWER UP become a reality! FIRST[®] Robotics Competition community members have created a FIRST POWER UP set using LEGO bricks and have started the process to turn it into a LEGO set that could be purchased!

This process has many steps, and to continue we need to accumulate 10,000 votes on the LEGO website. If just three people from every team vote for this, we would have the number of votes needed to get us one step closer to making this a commercially-available LEGO product! Showing support is easy! See the full project here: [FIRST POWER UP Half Field Model](#). Create a login, then click the blue 'Support' button. Please share the project with others who may want to give support.
