

*FIRST* Robotics Competition Team 2656  
*FIRST* LEGO League Teams 51258 + 53070

Gateway High School - Monroeville, PA

## Our Mission

As a team, our main goal is to encourage young people to explore the fields of science and technology. To this end, we participate in several robotics competitions that are designed to promote this goal, and to develop experience in STEM-related fields.

Our program has a team competing in the *FIRST* Robotics Competition, as well as two *FIRST* LEGO League teams. In addition to the engineering opportunities that these challenges represent, they also provide students with opportunities to:

- Pursue passions in all fields; not only those related to science and technology
- Gain hands-on experience with multi-disciplinary collaborative problem solving
- Learn how to handle real-life situations by working to short, strict deadlines, handling team finances, and taking robots from design through implementation within the guidelines of the competition
- Volunteer in their community
- Network with industry and engineering firms and companies

## Team Organization

- 45 team members in 2025-2026, representing grades 7-12
- 8 adult volunteers
- 3 competition teams (FRC and 2 FLL teams)

## Team Impact

- Over 90 alumni have participated in our program since 2008, many in STEM fields today
- In 2024 and thus far in 2025, we have participated in 55 community events inspiring over 9,000 visitors. The total student volunteer hours at these events add up to 663. Our Girl Scouts Initiative, started in 2018, has helped local girls earn 942 STEM badges through our free workshops.

### **Educational Improvement Tax Credit approved program**

EITC donations to Quasics can be accepted via the Gateway Education Foundation. Contact us today if your business is on the PA Department of Community and Economic Development list.

### **Sample budget**

There are many costs associated with running the *FIRST* programs at Gateway. Our projected budget for the 2025-2026 season includes the following expenses:

<b>Competition Registration Fees (FRC/FLL)</b>	<b>\$11,000</b>
<b>Local Competition Entry Fees (FLL)</b>	<b>\$885</b>
<b>Team Uniforms (FRC/FLL)</b>	<b>\$700</b>
<b>Parts/Tools/Supplies/Safety</b>	<b>\$4,500</b>
<b>Demonstration Materials</b>	<b>\$1000</b>
<hr/>	
<b>Total</b>	<b>\$18,085</b>

In addition to monetary donations, the team welcomes in-kind donations, such as tools, spare parts and components, metal stock, extra wire, and more.

Our program is in need of adult mentors to provide support during team activities including:

- Writing, including funding documents and our Business Plan
- Organization and project management of fundraising, sponsor visits, and more
- Graphic design and Marketing
- Advice and guidance during prototyping efforts
- Guiding the students through the technical challenges we encounter (electrical, mechanical, and programming based)
- Public speaking practice and feedback
